Namaste Dr. Porwal,

I came to your clinic a little over month ago to see if you could help me with a chronic cough that I've had for 25 years. I had been to many doctors over the years but nothing really helped and most were waste of time and money. I had figured out that diet played a big role so I totally changed my diet (eliminated dairy, wheat, oil, fried food,...) and the coughing fits did reduce but the urge to cough was always present. So my expectations when I first visited your office was not high. I was hoping for a little relief but to my surprise, even after the very first session the need and intensity of my cough had reduced. Now 10 sessions later my cough has reduced even further by approximately 75% or more. My friends are amazed, I can now have a normal conversation without having to clear my throat or being interrupted with a coughing fit. I am so happy I discovered your Yogic Acupuncture service, you have a divine gift that has created miraculous healing results in my life.

Thank you so much!

With Gratitude,

Throtaka Mulloy
